EDUCATION

SOUTHERN LUZON STATE UNIVERSITY

Bachelor of Science in Computer Engineering

Lucban, Quezon

2022 - 2026

SUMMARY

I am a computer engineering graduate who has a keen interest in technology. At present, cultivating technical and troubleshooting skills by working in various areas of technology. I am keen to learn, add value, and acquire professional exposure with regard to real-life projects. Dedicated to flexibility, enhancement, and long-lasting growth in the area of technology.

RELEVANT EXPERIENCE

IBUILD.PH WEB SERVICES AND SOLUTIONS

Web Developer Intern

Marikina, Metro Manila

June – August 2025

- Managed and updated website content using Drupal, including creating, editing, and publishing web pages, announcements, and articles while ensuring accuracy and proper formatting.
- Assisted in website maintenance by troubleshooting minor technical issues, checking page functionality, and ensuring that website content, links, and media were properly displayed and accessible.
- Uploaded, organized, and maintained digital assets such as images, documents, and multimedia files, while following company guidelines for content structure and file management.
- Collaborated with team members using Trello for project management on website improvement tasks, including content updates, layout adjustments, and user interface enhancements to improve overall user experience.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, C++

Frontend Development: HTML, CSS, Drupal

Backend Development: Drupal

Tools & Platforms: Visual Studio Code, Eclipse, Google Colab, SEO

PROJECTS

KCMACAPAYAD: PROFESSIONAL WEB PORTFOLIO | [GitHub Link](#)

Frontend Project

- Designed and developed a responsive personal portfolio website to showcase academic background, technical skills, and projects.
- Built a mobile-friendly and responsive layout to ensure compatibility across desktop, tablet, and mobile devices.
- Utilized Git and GitHub for version control, project management, and deployment workflow.
- Deployed and maintained the website using Vercel, enabling continuous deployment and easy updates.

FORMA: WEB LAYOUT PROJECT | [GitHub Link](#)

Frontend Project

- Developed FORMA, a responsive one-page website using HTML, CSS, and JavaScript, translating a Figma AI-generated mockup into code to practice front-end fundamentals and modern layout techniques.
- Implemented responsive layouts using CSS Grid and Flexbox, creating a clean and minimalist user interface with interactive navigation.
- Utilized Git for version control and deployed the project on Vercel, gaining experience with real-world development workflows and hosting.
